PROFILE

Accomplished Water Infrastructure Project Manager specializing in the design and implementation of sustainable water systems. Over 12 years of experience in managing large-scale projects that prioritize environmental integrity and community well-being. Expertise in integrating innovative technologies and practices to enhance water quality and distribution efficiency. Strong leadership abilities demonstrated through effective team management and cross-functional collaboration.

EXPERIENCE

LEAD WATER RESOURCES MANAGER

EcoWater Solutions

2016 - Present

- Directed a team of engineers in the development of a \$25 million green infrastructure project.
- Implemented water conservation strategies that reduced consumption by 30% in targeted areas.
- Engaged with community stakeholders to promote awareness of water sustainability practices.
- Developed project timelines and resource plans, ensuring adherence to budget constraints.
- Utilized advanced software for project tracking and reporting to stakeholders.
- Conducted training workshops on water management for local agencies.

PROJECT COORDINATOR

WaterWorks Engineering

2014 - 2016

- Assisted in the design and execution of a \$5 million stormwater management system.
- Coordinated with environmental consultants to ensure compliance with regulations.
- Managed project documentation and reporting for stakeholders and funding agencies.
- Conducted site assessments and feasibility studies for proposed projects.
- Supported grant writing efforts that secured additional funding for water initiatives.
- Facilitated community meetings to gather input and address concerns.
