MICHAEL ANDERSON

WATER TECHNOLOGY PROJECT MANAGER

Dynamic Water Operations Manager with a focus on innovative technological solutions to enhance water management processes. Demonstrates a robust ability to analyze complex data sets and implement strategies that promote efficiency and sustainability. Proven experience in leading cross-disciplinary teams to achieve operational goals while adhering to environmental regulations. Skilled in stakeholder engagement and fostering partnerships that drive community involvement in water conservation initiatives.

PROFESSIONAL EXPERIENCE

HydroSmart Technologies

Mar 2018 - Present

Water Technology Project Manager

- Managed projects aimed at integrating smart water metering systems across urban areas.
- Collaborated with IT teams to develop software for real-time water usage monitoring.
- Conducted feasibility studies for implementing renewable energy solutions in water treatment.
- Designed and executed pilot programs to test new water conservation technologies.
- Engaged with local communities to promote awareness of smart water solutions.
- Analyzed project outcomes to inform future technology deployments.

EcoConsulting Group

Dec 2015 - Jan 2018

Water Resource Consultant

- Provided expert advice on sustainable water management practices to municipalities.
- Assisted in the development of water conservation policies for local governments.
- Conducted workshops to educate stakeholders on innovative water solutions.
- Analyzed water usage trends to identify areas for improvement.
- Facilitated stakeholder meetings to gather input on water management strategies.
- Developed comprehensive reports outlining best practices in water resource management.

ACHIEVEMENTS

- Launched a smart metering initiative that reduced water consumption by 20%.
- Awarded the Innovation in Water Management Award in 2023.
- Increased community participation in water conservation programs by 50%.
