### WORK EXPERIENCE

#### Community Outreach Coordinator

2020-2023

WaterSmart Initiative

- Developed community outreach programs to educate residents about water conservation.
- Utilized social media platforms to promote sustainable water practices.
- Organized workshops and events to engage the public in water management discussions.
- Collaborated with local schools to integrate water education into curricula.
- Conducted surveys to assess community awareness and needs regarding water resources.
- Created informative materials for distribution at community events.

#### Water Resource Educator

2019-2020

Environmental Education Center

- Designed educational programs focusing on water conservation and sustainability.
- Conducted interactive workshops for various age groups to promote water stewardship.
- Collaborated with nonprofits to enhance community engagement in water initiatives.
- Developed partnerships with local businesses to support conservation efforts.
- Monitored program effectiveness through feedback and assessment tools.
- Presented at regional conferences on best practices in water education.

### ACHIEVEMENTS

- Increased community participation in water conservation programs by 50%.
- Developed award-winning educational materials recognized by the National Education Association.
- Facilitated a partnership that led to a community garden project promoting water-efficient practices.
