Michael Anderson

CLIMATE RESILIENCE ANALYST

Dynamic Water Resources Planning Analyst with a strong emphasis on climate change adaptation and resilience planning. Experienced in assessing the impacts of climate variability on water resources and developing strategies to mitigate adverse effects. Proficient in stakeholder engagement and public policy advocacy, fostering collaboration among diverse groups to enhance water management practices.

EXPERIENCE

CLIMATE RESILIENCE ANALYST

National Climate Adaptation Center

2016 - Present

- Conducted vulnerability assessments to identify risks to water resources from climate change.
- Developed adaptation strategies to enhance resilience in water management systems.
- Engaged with communities to promote awareness of climate impacts on local water resources.
- Collaborated with government agencies to align policies with climate action objectives.
- Prepared technical reports and presentations for stakeholders.
- Monitored and evaluated the effectiveness of adaptation initiatives.

WATER RESOURCES POLICY INTERN

Environmental Defense Fund

2014 - 2016

- Assisted in policy research related to water resource management and climate adaptation.
- Supported the development of advocacy materials for policy initiatives.
- Conducted interviews with stakeholders to gather perspectives on water management challenges.
- Analyzed legislative proposals and their potential impacts on water resources.
- Contributed to the preparation of reports on climate resilience strategies.
- Participated in community forums to discuss climate and water issues.
