

MICHAEL ANDERSON

WATER SUPPLY PROJECT MANAGER

PROFILE

Dynamic Water Supply Manager with a robust background in engineering and project management, specializing in large-scale water resource projects. Adept at navigating complex regulatory environments while ensuring optimal performance of water supply systems. Extensive experience in stakeholder management, fostering strong relationships with governmental agencies, community organizations, and private sector partners.

EXPERIENCE

WATER SUPPLY PROJECT MANAGER

Global Water Solutions Inc.

2016 - Present

- Led a team of engineers in the design and implementation of a \$10 million water treatment facility.
- Negotiated contracts with suppliers and contractors, achieving cost savings of 20%.
- Conducted risk assessments to identify and mitigate potential project delays.
- Established performance metrics to evaluate project milestones and outcomes.
- Facilitated training sessions for staff on new technologies and procedures.
- Reported project progress to stakeholders, ensuring transparency and accountability.

WATER RESOURCE ENGINEER

State Water Authority

2014 - 2016

- Developed models for water resource allocation, optimizing usage across multiple sectors.
- Implemented water conservation programs that reduced consumption by 25%.
- Conducted feasibility studies for new water supply projects, presenting findings to the board.
- Collaborated with environmental scientists to assess impacts of water extraction.
- Prepared detailed reports for regulatory compliance and funding applications.
- Participated in public hearings to advocate for water resource initiatives.
