- San Francisco, CA

#### SKILLS

- Water Treatment Processes
- Compliance Monitoring
- Data Analysis
- Team Collaboration
- Equipment Evaluation
- Community Engagement

#### LANGUAGES

- English
- Spanish
- French

#### EDUCATION

**BACHELOR OF SCIENCE IN ENVIRONMENTAL ENGINEERING,  
UNIVERSITY OF MICHIGAN**

#### ACHIEVEMENTS

- Improved treatment efficiency by 15% through process enhancements.
- Received recognition for outstanding performance in a team project.
- Contributed to a successful community water education program that reached over 500 residents.

#### WORK EXPERIENCE

##### WATER TREATMENT ENGINEER

GreenFlow Systems  
2020 - 2025

- Conducted regular assessments of water treatment systems to ensure compliance.
- Collaborated with engineers to design effective treatment solutions.
- Monitored operational performance and recommended improvements.
- Prepared documentation for regulatory submissions and audits.
- Assisted in the training of new staff on treatment protocols.
- Engaged with equipment suppliers to evaluate new technologies.

##### JUNIOR WATER ENGINEER

Blue Waters Ltd.  
2015 - 2020

- Supported senior engineers in the analysis of water treatment data.
- Participated in the installation of new treatment equipment.
- Conducted field tests to assess water quality parameters.
- Assisted in the preparation of project reports and presentations.
- Maintained accurate records of operational activities.
- Engaged in community outreach programs focused on water education.
