MICHAEL ANDERSON

LEAD PROCESS ENGINEER

Accomplished Water Treatment Plant Manager with extensive experience in both municipal and industrial water treatment sectors. Over 10 years of expertise in optimizing treatment processes, improving operational efficiency, and ensuring compliance with environmental regulations. Known for strategic vision and the ability to lead large teams toward achieving organizational goals.

PROFESSIONAL EXPERIENCE

Aqua Innovations

Mar 2018 - Present

Lead Process Engineer

- Designed and optimized water treatment processes for industrial clients, enhancing efficiency by 25%.
- Conducted feasibility studies for new treatment technologies and their environmental impacts.
- Collaborated with cross-functional teams to implement process improvements.
- Trained staff on advanced treatment methods and safety procedures.
- Analyzed water quality data to identify trends and recommend operational adjustments.
- Presented findings and recommendations to stakeholders and management.

River Valley Water District

Dec 2015 - Jan 2018

Water Treatment Operations Manager

- Oversaw a team of 50 personnel in the operation of a water treatment facility.
- Developed operational protocols that improved water quality compliance rates by 30%.
- Managed the implementation of a new SCADA system for enhanced monitoring.
- Facilitated workshops on water conservation and efficiency for local communities.
- Coordinated maintenance activities to minimize downtime and maximize production.
- Engaged with local government to support infrastructure improvement initiatives.

ACHIEVEMENTS

- Recipient of the National Water Efficiency Award in 2020.
- Implemented a pilot program that reduced energy consumption by 20% in treatment processes.
- Published case studies on successful water treatment projects in industry journals.
