

MICHAEL ANDERSON

LEAD WEAPONS SYSTEMS ANALYST

PROFILE

Accomplished Weapons Systems Analyst with extensive experience in military technology assessments and program management. Proven track record in evaluating the effectiveness of weapon systems and providing actionable insights to enhance performance. Recognized for strong analytical skills and the ability to communicate complex technical concepts to non-technical stakeholders. Expertise in operational testing and evaluation methodologies, ensuring systems meet rigorous military standards.

EXPERIENCE

LEAD WEAPONS SYSTEMS ANALYST

Global Defense Corp.

2016 - Present

- Directed comprehensive evaluations of weapon systems, leading to enhanced operational effectiveness.
- Coordinated with military personnel to identify system requirements and performance goals.
