EDUCATION

Bachelor of Science in Mechanical Engineering

University of Engineering and Technology
2016-2020

SKILLS

- Defense Technology Assessment
- Systems Optimization
- Data Analysis
- Project Management
- Technical Reporting
- Quality Assurance

LANGUAGES

- English
- Spanish
- French

Proficient Weapons Systems Analyst with a focus on defense technology and systems optimization. Over six years of experience in evaluating and enhancing weapon systems to meet military standards. Strong analytical skills complemented by a background in engineering and project management. Proven ability to collaborate effectively with interdisciplinary teams to drive improvements in system performance.

WORK EXPERIENCE

Weapons Systems Analyst   2020-2023

Advanced Defense Systems

- Evaluated the performance of weapon systems to ensure compliance with operational standards.
- Collaborated with engineering teams to develop and implement testing methodologies.
- Analyzed evaluation data to identify trends and areas for improvement.
- Prepared technical reports for military stakeholders to inform decision-making.
- Managed project timelines and resources to ensure efficient program execution.
- Engaged in continuous learning to stay updated on emerging defense technologies.

Quality Assurance Analyst   2019-2020

Defense Quality Services

- Supported quality assurance efforts for military systems, ensuring compliance with specifications.
- Assisted in the evaluation of weapon systems during testing phases.
- Gathered and analyzed data to support quality assessments.
- Developed documentation for testing procedures and outcomes.
- Participated in team discussions to improve evaluation processes.
- Engaged in training to enhance technical skills in quality assurance.

ACHIEVEMENTS

- Improved system evaluation processes, leading to a 20% reduction in analysis time.
- Recognized for contributions to a successful defense technology project.
- Received commendation for excellence in quality assurance from senior management.
