EXPERTISE SKILLS

- Product Management
- User-Centric Design
- Market Analysis
- Clinical Collaboration
- Regulatory Submissions
- Performance Evaluation

LANGUAGES

- English
- Spanish
- French

CERTIFICATION

- Master of Engineering in Biomedical Engineering, University of California, Berkeley

MICHAEL ANDERSON

WEARABLE TECHNOLOGY PRODUCT MANAGER

Strategic and forward-thinking Wearable Health Technology Engineer with extensive experience in developing cutting-edge health monitoring systems. Expertise in leveraging emerging technologies to create innovative solutions that address critical healthcare challenges. Proven success in managing full product life cycles, from concept through to market launch, with a strong focus on user-centric design principles.

PROFESSIONAL EXPERIENCE

Health Innovations Group

Mar 2018 - Present

Wearable Technology Product Manager

- Oversaw the development of a wearable device for diabetes management, improving patient adherence by 25%.
- Coordinated with R&D teams to align product features with clinical requirements.
- Implemented feedback mechanisms to capture user insights and inform product iterations.
- Developed strategic marketing plans to enhance product visibility and market penetration.
- Engaged in partnership negotiations with healthcare providers for pilot programs.
- Monitored industry trends to identify opportunities for innovation.

NextGen Health Technologies

Dec 2015 - Jan 2018

Systems Engineer

- Designed and tested wearable health systems for chronic illness monitoring.
- Utilized simulation tools to optimize device performance and reliability.
- Collaborated with clinical teams to validate device efficacy through user studies.
- Produced technical specifications and documentation for regulatory submissions.
- Facilitated training sessions for healthcare professionals on device operation.
- Conducted post-launch evaluations to assess product impact on patient care.

ACHIEVEMENTS

- Achieved a 50% reduction in development time for new wearable devices.
- Received 'Excellence in Innovation' award from the Health Tech Association.
- Contributed to a significant increase in market share through strategic product launches.
