Enthusiastic Web API Developer with 4 years of experience in developing APIs for mobile applications and web services. My focus has been on creating high-quality, efficient APIs that facilitate smooth communication between different software systems. I excel in understanding user needs and translating them into technical specifications. I have experience in both front-end and back-end development, allowing me to create cohesive applications that provide excellent user experiences.

PROFESSIONAL EXPERIENCE

Mobile Innovations LLC   *Mar 2018 - Present*
Web API Developer

- Designed and developed RESTful APIs for a mobile banking application.
- Collaborated with mobile developers to ensure smooth integration of APIs, enhancing user satisfaction.
- Implemented security protocols to safeguard sensitive user data.
- Conducted user acceptance testing to ensure the APIs met client requirements.
- Utilized Git for version control and collaboration among team members.
- Assisted in the documentation of the API for external developers.

Tech Startups Inc.   *Dec 2015 - Jan 2018*
Junior Web Developer

- Supported the development of APIs for various web applications, contributing to multiple projects.
- Helped optimize existing APIs, resulting in a 20% improvement in performance.
- Worked closely with the QA team to identify and fix bugs in the APIs.
- Gained experience in using RESTful principles to design and implement APIs.
- Participated in code reviews to ensure high-quality standards.
- Assisted in the creation of API documentation.

ACHIEVEMENTS

- Played a key role in launching a mobile app that reached over 10,000 downloads in its first month.
- Received commendation for exceptional teamwork and collaboration.
- Achieved a 95% customer satisfaction rate on API integrations.
