SKILLS

- Python
- Flask
- Jenkins
- Automated Testing
- RESTful Principles
- Distributed Systems

EDUCATION

BACHELOR OF SCIENCE IN SOFTWARE DEVELOPMENT, COLLEGE OF ENGINEERING

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Enhanced system performance through effective API optimization techniques.
- Received recognition for exceptional attention to detail and coding standards.
- Contributed to a project that significantly reduced operational costs by automating processes.

Michael Anderson

WEB API ENGINEER

Detail-oriented Web API Developer with a strong background in building APIs for distributed systems. With over 5 years in the industry, I specialize in implementing scalable solutions that meet the needs of diverse applications. My technical expertise includes working with various programming languages and frameworks to develop high-quality APIs. I thrive in challenging environments and value the importance of clean code and thorough documentation.

EXPERIENCE

WEB API ENGINEER

Smart Technologies Ltd.

2016 - Present

- Engineered APIs for a distributed computing platform, improving system scalability by 50%.
- Utilized Python and Flask to build lightweight and efficient APIs.
- Implemented automated testing frameworks, ensuring high-quality deliverables.
- Managed API lifecycle from design to deployment, ensuring adherence to best practices.
- Worked with DevOps teams to streamline deployment processes using Jenkins.
- Participated in peer programming sessions to enhance code quality.

JUNIOR API DEVELOPER

NextGen Solutions

2014 - 2016

- Assisted in the development of APIs for various projects, gaining hands-on experience.
- Contributed to optimizing existing APIs, resulting in improved performance and reliability.
- Engaged in team meetings to discuss project requirements and timelines.
- Helped maintain API documentation for internal use.
- Learned to implement RESTful principles in API design.
- Supported the testing of APIs to ensure functionality and performance.
