

MICHAEL ANDERSON

SENIOR WEB APPLICATION DEVELOPER

PROFILE

Results-driven Web Application Developer with over 8 years of experience in building scalable web applications and driving technological innovation. My expertise lies in full-stack development, where I have effectively utilized a variety of programming languages and frameworks to create robust solutions. I have a strong background in Agile methodologies, allowing me to lead projects from conception through to delivery while ensuring high standards of quality.

EXPERIENCE

SENIOR WEB APPLICATION DEVELOPER

NextGen Technologies

2016 - Present

- Led the development of a multi-platform web application that improved user engagement by 40%.
- Architected back-end solutions using Node.js and Express, optimizing data flow and processing times.
- Implemented CI/CD pipelines to automate testing and deployment processes, reducing release time by 50%.
- Managed a team of developers, providing guidance and ensuring adherence to best practices.
- Engaged in regular stakeholder meetings to align project objectives with business goals.
- Improved application security through regular audits and enhancements, resulting in zero breaches in 2 years.

WEB APPLICATION DEVELOPER

Digital Solutions Co.

2014 - 2016

- Designed and developed responsive web applications using modern frameworks such as Angular and Vue.js.
- Worked closely with product managers to gather requirements and translate them into technical specifications.
- Optimized existing applications for performance improvements, resulting in a 20% decrease in server load.
- Conducted user acceptance testing to ensure software met business needs and user expectations.
- Created and maintained RESTful APIs for seamless interactions between front-end and back-end systems.
- Participated in code reviews, providing constructive feedback to improve code quality and maintainability.

SKILLS

- JavaScript
- Angular
- Node.js
- RESTful APIs
- Agile
- Git

LANGUAGES

- English
- Spanish
- French

EDUCATION

MASTER OF SCIENCE IN SOFTWARE
ENGINEERING, TECH UNIVERSITY, 2015

ACHIEVEMENTS

- Awarded 'Best Innovator' for introducing a groundbreaking web application feature that enhanced user experience.
- Increased team efficiency by introducing Agile methodologies, leading to a 30% faster project delivery.
- Successfully completed a series of workshops on advanced web technologies for team development.
