SKILLS

- .NET
- JavaScript
- AWS
- HIPAA Compliance
- API Development
- Agile
- Security

EDUCATION

BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY, UNIVERSITY OF MICHIGAN, 2014

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Improved patient engagement metrics by 50% through innovative web solutions.
- Recognized for outstanding contributions to HIPAA compliance initiatives in 2020.
- Led a project that resulted in a 25% decrease in application load times, improving user satisfaction.

Michael Anderson

SENIOR WEB ARCHITECT

Experienced Web Architect with a robust background in healthcare technology. Over 9 years of experience in designing secure and compliant web applications for healthcare providers. Proficient in technologies such as .NET, JavaScript, and cloud platforms like AWS. Strong focus on data protection and regulatory compliance, ensuring that all applications meet HIPAA standards.

EXPERIENCE

SENIOR WEB ARCHITECT

HealthTech Solutions

2016 - Present

- Designed a secure patient management system used by over 10,000 healthcare professionals.
- Implemented data encryption and security measures to ensure HIPAA compliance.
- Developed APIs for interoperability between various healthcare systems, enhancing patient data access.
- Worked with clinical staff to gather requirements and optimize application usability.
- Led system architecture reviews and audits to ensure best practices were followed.
- Mentored junior developers, promoting a culture of security and compliance awareness.

WEB DEVELOPER

MediApp Corp

2014 - 2016

- Developed web applications for patient engagement and communication using ASP.NET and JavaScript.
- Collaborated with design teams to create user-friendly interfaces tailored for healthcare professionals.
- Conducted testing and debugging to ensure high-quality deliverables.
- Participated in Agile development cycles to enhance project efficiency.
- Assisted in the integration of third-party services for enhanced functionality.
- Created technical documentation to guide users in navigating the applications.
