MICHAEL ANDERSON

WEB AUTOMATION ENGINEER

Experienced Web Automation Engineer with a strong background in e-commerce platforms and cloud-based applications. Over 6 years of hands-on experience in developing and executing automated test strategies to enhance software quality. Skilled in utilizing tools like Selenium and JUnit to design scalable test frameworks that ensure robust functionality across multiple browsers and platforms.

PROFESSIONAL EXPERIENCE

E-Comm Solutions Inc.

Mar 2018 - Present

Web Automation Engineer

- Designed and implemented automation frameworks for testing web applications, reducing manual testing time by 50%.
- Collaborated with cross-functional teams to gather requirements and ensure comprehensive test coverage.
- Executed regression tests following system updates, maintaining high quality and performance standards.
- Utilized JUnit for unit testing, improving the reliability of application components.
- Identified and documented bugs, providing detailed reports to development teams for prompt resolution.
- Participated in sprint reviews to align testing efforts with project goals and timelines.

CloudTech Systems

Dec 2015 - Jan 2018

Quality Assurance Engineer

- Developed automated scripts using Selenium and Java, enhancing test coverage across multiple platforms.
- Conducted performance testing to ensure application responsiveness under varying conditions.
- Engaged in code reviews, fostering a culture of quality within the development team.
- Created detailed testing documentation and user manuals for internal and external stakeholders.
- Streamlined the testing process by introducing best practices for test case management.
- Trained new team members on the automation framework and testing tools, improving team capability.

ACHIEVEMENTS

- Increased test coverage by 40% through the implementation of automated testing solutions.
- Recognized for outstanding performance with a 'Star Performer' award in 2019.
- Successfully reduced the average bug resolution time by 20% through proactive testing measures.
