SKILLS

- Selenium
- Python
- CI/CD
- Automation Testing
- Agile
- Cloud Applications
- Regression Testing

EDUCATION

BACHELOR'S DEGREE IN COMPUTER SCIENCE, STATE UNIVERSITY, 2017

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Successfully automated 70% of test cases for a major product release, reducing testing time significantly.
- Recognized for outstanding performance with a 'Rising Star' award in 2021.
- Improved testing cycle time by 25% through the implementation of automation tools.

Michael Anderson

WEB AUTOMATION ENGINEER

Proactive Web Automation Engineer with over 3 years of experience in developing and executing automated tests for cloud-based applications. Strong background in utilizing Selenium and Python to enhance testing processes and deliver high-quality software solutions. Known for a detail-oriented and results-driven approach, consistently identifying areas for improvement and implementing effective testing strategies.

EXPERIENCE

WEB AUTOMATION ENGINEER

Cloud Innovations

2016 - Present

- Created and maintained automated test scripts using Selenium and Python, improving testing efficiency by 30%.
- Collaborated with developers to identify and resolve bugs during the development process, enhancing product quality.
- Executed regression tests to ensure new features did not disrupt existing functionality.
- Participated in code reviews, contributing to discussions on automation best practices.
- Assisted in the setup of a CI/CD pipeline for automated testing, streamlining deployment processes.
- Provided feedback on test results to improve application performance and user experience.

QA TESTER

Innovative Cloud Solutions

2014 - 2016

- Developed manual and automated test cases for web applications, ensuring thorough testing coverage.
- Worked with cross-functional teams to gather requirements and define testing scopes.
- Documented test cases and results for compliance and quality assurance purposes.
- Engaged in testing activities for system upgrades and new feature releases, maintaining quality standards.
- Assisted in the identification of automation opportunities to reduce manual testing efforts.
- Contributed to team meetings with insights on improving testing processes and methodologies.
