ACHIEVEMENTS

- Received 'Employee of the Month' for outstanding contributions to project success.
- Developed a web application that was recognized for its innovative design at the local tech fair.
- Increased web traffic by 50% through effective SEO strategies implemented on client websites.

PROFILE

Innovative Web Developer with over 5 years of experience specializing in front-end development and user interface design. Skilled in creating visually appealing and highly functional web applications, I have a strong foundation in HTML, CSS, and JavaScript, complemented by expertise in frameworks like Angular and Vue.js. My background encompasses work in the tech and entertainment industries, developing web applications that enhance user interaction and engagement.

EXPERIENCE

FRONT-END DEVELOPER

Creative Media Group

2016 - Present

- Designed and implemented user interfaces for multiple web applications, boosting user engagement by 35%.
- Collaborated with UX designers to create prototypes, enhancing project vision and execution.
- Utilized Angular for the development of single-page applications, significantly improving load times.
- Participated in daily stand-ups and sprint planning sessions, ensuring alignment with project goals.
- Conducted A/B testing on various features, using data to drive design decisions and improvements.
- Maintained and updated existing web applications, ensuring compatibility with the latest web standards.

JUNIOR WEB DEVELOPER

Entertainment Solutions Co.

2014 - 2016

- Assisted in the development of web applications, focusing on responsive design and cross-browser compatibility.
- Utilized HTML5 and CSS3 to enhance visual appeal and functionality of websites.
- Worked with senior developers to troubleshoot and resolve issues in existing applications.
- Contributed to team brainstorming sessions, providing input on new features and improvements.
- Created documentation for project workflows and coding standards, improving team efficiency.
- Engaged in code reviews, learning from feedback to enhance personal coding practices.
