MICHAEL ANDERSON

FULL-STACK DEVELOPER

Results-driven Web Developer with 10 years of experience in full-stack development and a strong focus on back-end technologies. My expertise lies in building robust, scalable applications using PHP, MySQL, and Laravel. With a strong analytical mindset and problem-solving skills, I have successfully completed numerous projects that not only meet client specifications but also enhance operational efficiency.

PROFESSIONAL EXPERIENCE

FinTech Innovations   *Mar 2018 - Present*
Full-Stack Developer

- Developed and maintained web applications using Laravel, improving data processing speed by 40%.
- Worked alongside product managers to define requirements and scope for new features, enhancing user satisfaction.
- Implemented RESTful APIs for third-party services, expanding application functionalities.
- Conducted regular performance audits, ensuring applications met industry security standards.
- Collaborated with UI/UX teams to design application interfaces that improved user engagement.
- Mentored junior developers, promoting best practices and improving team coding standards.

Global Finance Solutions   *Dec 2015 - Jan 2018*
Web Developer

- Designed and developed internal web applications that streamlined business operations, reducing processing time by 25%.
- Utilized PHP and MySQL to create dynamic web applications, enhancing functionality and user experience.
- Participated in Agile development processes, contributing to planning and retrospectives.
- Implemented data encryption techniques to secure sensitive financial information.
- Maintained comprehensive documentation for systems and processes, facilitating better team collaboration.
- Regularly updated existing applications to incorporate user feedback and improve performance metrics.

ACHIEVEMENTS

- Played a key role in a project that won 'Best Fintech Application' at the National Tech Awards.
- Achieved a 99.9% uptime for web applications through effective monitoring and issue resolution.
- Recognized for outstanding mentorship and support to junior developers within the team.
