MICHAEL ANDERSON

LEAD WEB DEVOPS ENGINEER

Dynamic Web DevOps Engineer with a decade of experience in software development and operations, particularly in the e-commerce sector. Expertise in cloud computing, continuous integration, and automated deployment strategies. Proven track record of reducing deployment times and improving application performance through innovative solutions. Strong leadership skills with the ability to mentor junior staff and lead cross-functional teams.

PROFESSIONAL EXPERIENCE

ECommerce Dynamics

Mar 2018 - Present

Lead Web DevOps Engineer

- Directed the transition to cloud-based infrastructure, leading to a 50% increase in scalability.
- Implemented a microservices architecture that improved application performance by 40%.
- Created CI/CD pipelines using CircleCI, enhancing deployment efficiencies.
- Mentored a team of 5 junior DevOps engineers, fostering professional growth and skills development.
- Introduced automated testing frameworks that reduced bugs by 30% pre-release.
- Collaborated with product teams to align technology solutions with business objectives.

RetailTech Solutions

Dec 2015 - Jan 2018

Web Operations Engineer

- Managed deployment of web applications, ensuring high availability and performance.
- Utilized AWS services for resource management and optimization.
- Developed automation scripts to streamline operational processes.
- Conducted performance testing and optimization to improve application load times.
- Engaged in incident management, reducing response times by 20%.
- Supported cross-functional teams to implement new features and updates.

ACHIEVEMENTS

- Achieved a 40% reduction in deployment time through optimized CI/CD processes.
- Recognized for excellence in project management and delivery on time.
- Led the initiative to implement a new monitoring system, increasing uptime to 99.95%.
