- Successfully reduced bug resolution time by 30% through effective troubleshooting techniques.

PROFILE

Dedicated Web Integration Engineer with a strong background in software development and system integration spanning over 5 years. Proven ability to analyze complex requirements and translate them into functional web solutions. Experienced in both front-end and back-end technologies, with a particular focus on creating seamless user experiences through effective integration strategies.

EXPERIENCE

WEB INTEGRATION ENGINEER

Global Tech Solutions

2016 - Present

- Integrated third-party APIs into existing web platforms, enhancing functionality for users.
- Collaborated with designers to create user-friendly interfaces that align with client branding.
- Conducted code reviews to ensure adherence to best practices and performance standards.
- Utilized JavaScript frameworks to build dynamic web applications with improved user engagement.
- Assisted in the migration of legacy systems to modern web solutions, reducing operational costs by 15%.
- Developed technical documentation to support ongoing maintenance and updates.

JUNIOR WEB DEVELOPER

Innovatech Inc.

2014 - 2016

- Supported the development of web applications by writing clean, efficient code under the guidance of senior developers.
- Worked on debugging and troubleshooting issues in existing web applications.
- Participated in daily stand-ups and contributed to project planning discussions.
- Assisted in the implementation of responsive design principles to improve mobile compatibility.
- Engaged in user acceptance testing to ensure product quality before launch.
- Maintained version control using Git, ensuring seamless collaboration with the development team.
