MICHAEL ANDERSON

WEB MIDDLEWARE DEVELOPER

Dedicated Web Middleware Developer with more than 4 years of experience in building and maintaining middleware systems for e-commerce platforms.

Skilled in using technologies such as Node.js and Express.js to create seamless data flow and improve application responsiveness. Proven ability to work collaboratively with cross-functional teams to deliver high-quality software solutions.

PROFESSIONAL EXPERIENCE

E-Commerce Innovations

Mar 2018 - Present

Web Middleware Developer

- Developed and maintained middleware components that facilitated communication between front-end and back-end services.
- Implemented RESTful APIs that supported product catalog management and order processing.
- Worked with frontend developers to optimize application performance, resulting in a 20% improvement in load times.
- Conducted user acceptance testing to ensure middleware solutions met customer expectations.
- Analyzed system logs to troubleshoot and resolve performance issues proactively.
- Contributed to the design of a microservices architecture that enhanced system scalability.

NextGen Tech

Dec 2015 - Jan 2018

Software Developer Intern

- Assisted in the development of middleware applications for internal tools and services.
- Learned to integrate third-party APIs to enhance functionality and streamline processes.
- Participated in code reviews and contributed to team discussions on best practices.
- Supported the QA team in testing middleware solutions before deployment.
- Documented technical processes and created user guides for internal stakeholders.
- Gained hands-on experience in agile development methodologies and team collaboration.

ACHIEVEMENTS

- Improved application performance by 20% through effective middleware optimization strategies.
- Recognized as 'Intern of the Month' for outstanding contributions during the internship period.
- Collaborated on a project that resulted in a 15% increase in customer satisfaction ratings.
