- Java
- Spring
- SOAP
- Middleware Solutions
- Compliance
- Transaction Processing

LANGUAGES

- English
- Spanish
- French

EDUCATION

BACHELOR OF SCIENCE IN COMPUTER ENGINEERING, FINANCE UNIVERSITY, 2014

ACHIEVEMENTS

- Led a project that reduced transaction processing times by 35%, exceeding client expectations.
- Received 'Star Performer' award for exceptional contributions to middleware architecture.
- Successfully guided a team through a major middleware upgrade with zero downtime.

Proactive Web Middleware Developer with 7 years of experience in the finance sector, specializing in the development of middleware solutions that enhance transaction processing and data integrity. Expertise in integrating various financial systems and ensuring compliance with industry regulations. Skilled in technologies such as Java, Spring, and SOAP web services. Recognized for my analytical skills and ability to address complex challenges in high-stakes environments.

WORK EXPERIENCE

MIDDLEWARE SOLUTIONS ARCHITECT

Financial Services Group

2020 - 2025

- Architected and developed middleware solutions that improved transaction processing speed by 35%.
- Collaborated with compliance teams to ensure middleware systems met regulatory standards.
- Designed robust error-handling mechanisms that reduced transaction failures by 20%.
- Mentored junior developers and led training sessions on best practices in middleware development.
- Conducted performance audits and optimizations of existing middleware systems, enhancing reliability.
- Participated in cross-departmental teams to align middleware solutions with business goals.

MIDDLEWARE DEVELOPER

Banking Solutions Inc.

2015 - 2020

- Developed middleware applications to support real-time banking transactions and data processing.
- Collaborated with business analysts to gather requirements and ensure functional specifications were met.
- Implemented monitoring solutions to track middleware performance and identify bottlenecks.
- Supported the integration of legacy systems with modern middleware platforms.
- Documented system configurations and processes for future reference and compliance audits.
- Participated in incident response activities and contributed to root cause analysis efforts.
