## SKILLS

- .NET
- Azure
- EHR Systems
- HIPAA Compliance
- Middleware Solutions
- Team Collaboration

## EDUCATION

**BACHELOR OF SCIENCE IN HEALTH  
INFORMATICS, UNIVERSITY OF HEALTH  
SCIENCES, 2017**

## LANGUAGE

- English
- Spanish
- German

## ACHIEVEMENTS

- Improved data exchange efficiency by 25% through optimized middleware integration.
- Recognized for excellence in project delivery and adherence to compliance standards.
- Contributed to a project that received a healthcare innovation award for best practice integration.

# Michael Anderson

## MIDDLEWARE DEVELOPER

Ambitious Web Middleware Developer with a focus on healthcare applications, bringing 5 years of experience in creating and managing middleware solutions that facilitate data exchange between healthcare systems. Proficient in using technologies like .NET and Azure to develop secure and compliant integration solutions. Committed to enhancing patient care through technology and ensuring data integrity.

## EXPERIENCE

### MIDDLEWARE DEVELOPER

HealthTech Innovations

2016 - Present

- Developed middleware solutions that enabled secure data exchange between electronic health records (EHR) systems.
- Ensured compliance with HIPAA regulations while designing integration solutions for healthcare applications.
- Collaborated with healthcare professionals to gather requirements and improve system usability.
- Implemented monitoring tools to track data flow and identify integration issues.
- Participated in team meetings to discuss project progress and address technical challenges.
- Documented integration processes and workflows for future reference and training purposes.

### JUNIOR SOFTWARE DEVELOPER

Care Solutions Inc.

2014 - 2016

- Assisted in the development of middleware for patient management systems.
- Worked closely with senior developers to understand integration challenges and solutions.
- Participated in code reviews and contributed to improving coding standards.
- Supported testing efforts to ensure middleware solutions met quality benchmarks.
- Created user guides and documentation for middleware components.
- Gained hands-on experience with agile development practices and team collaboration.
