WORK EXPERIENCE

Senior Middleware Developer

2020-2023

Telecom Innovations Group

- Designed and implemented middleware systems that supported real-time communication applications, improving service reliability by 40%.
- Worked with cross-functional teams to define middleware architecture that aligned with business goals.
- Conducted performance testing and optimization, resulting in a 30% increase in system throughput.
- Provided technical leadership and guidance to junior developers on middleware best practices.
- Implemented automated testing frameworks to ensure high-quality code delivery.
- Participated in strategic planning sessions to identify future middleware enhancements.

Middleware Developer

2019-2020

NextGen Telecom

- Developed middleware solutions to support SMS and voice communication services.
- Collaborated with system architects to define APIs and integration points for new services.
- Assisted in troubleshooting and resolving middleware-related issues during production.
- Documented middleware configurations and processes for internal reference.
- Participated in code reviews to ensure adherence to coding standards.
- Engaged in continuous learning to stay updated on industry trends and technologies.

ACHIEVEMENTS

- Recognized for developing a middleware solution that enhanced system performance by 40%.
- Received 'Best Team Player' award for fostering collaboration within the development team.
- Contributed to a project that successfully launched a new communication service, exceeding customer expectations.
