WORK EXPERIENCE

Web Quality Engineer

2020-2023

CloudTech Solutions

- Designed and executed performance tests for cloud applications, improving response times by 45%.
- Implemented automated testing solutions using AWS Device Farm, enhancing testing coverage.
- Collaborated with product teams to optimize application performance and scalability.
- Utilized monitoring tools to track application performance metrics and identify areas for improvement.
- Managed defect lifecycles using JIRA, ensuring swift resolution of critical issues.
- Participated in Agile ceremonies to ensure alignment on quality standards and goals.

QA Engineer

2019-2020

Web Services Corp

- Executed comprehensive testing for cloud-based applications, ensuring high availability.
- Developed and maintained automated test suites, increasing testing efficiency by 35%.
- Worked closely with developers to resolve defects and improve application quality.
- Contributed to the development of testing standards and best practices.
- Tracked and reported bugs using JIRA, ensuring transparent communication.
- Engaged in continuous learning to stay updated with emerging cloud technologies.

ACHIEVEMENTS

- Led a project that improved application scalability, resulting in a 50% reduction in downtime.
- Awarded for excellence in cloud application testing by senior management.
- Successfully implemented a training program for new QA hires on cloud testing tools.
