SKILLS

- AWS
- Docker
- CI/CD
- Terraform
- Ansible
- Microservices

EDUCATION

BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY, CLOUD UNIVERSITY, 2015

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Reduced deployment times by 50% with automated CI/CD workflows.
- Improved system reliability, achieving 99.9% uptime.
- Received the Innovation Award for outstanding contributions to cloud projects.

Michael Anderson

LEAD CLOUD ENGINEER

Proficient Web Software Engineer with a robust background in cloud technologies and DevOps practices. Over 8 years of experience in building and deploying applications on cloud platforms. Skilled in AWS, Docker, and CI/CD pipelines. Strong understanding of system architecture and microservices development. Experienced in optimizing deployment processes to ensure high availability and scalability of applications.

EXPERIENCE

LEAD CLOUD ENGINEER

CloudTech Solutions

2016 - Present

- Led the migration of legacy applications to AWS, enhancing scalability.
- Implemented CI/CD pipelines to automate deployment processes.
- Designed microservices architecture for improved application performance.
- Collaborated with development teams to integrate new features.
- Monitored application performance and conducted troubleshooting.
- Conducted training sessions on cloud technologies for team members.

DEVOPS ENGINEER

TechOps Inc.

2014 - 2016

- Developed and maintained CI/CD pipelines for multiple projects.
- Automated infrastructure provisioning using Terraform and Ansible.
- Collaborated with development teams to ensure best practices in DevOps.
- Monitored system performance and ensured uptime of services.
- Participated in incident response and troubleshooting of production issues.
- Documented processes and created training materials for new hires.
