- Received recognition for outstanding performance in team projects.

# Michael Anderson

## WEB DEVELOPER

Dynamic Web Systems Engineer with a focus on creating interactive web applications that deliver exceptional user experiences. With 4 years of experience in the tech industry, I have honed my skills in both front-end and back-end technologies, particularly with React and Node.js. My background in graphic design complements my technical abilities, allowing me to contribute creatively to projects.

## EXPERIENCE

### WEB DEVELOPER
Visionary Tech Solutions
2016 - Present

- Created dynamic web applications that enhanced user interaction and engagement.
- Worked on integrating RESTful APIs to streamline data flow.
- Collaborated with designers to ensure high-quality UI/UX across all platforms.
- Participated in agile sprints, contributing to project planning and execution.
- Conducted user research to inform design decisions and improvements.
- Maintained and updated existing web applications to meet user needs.

### JUNIOR WEB ENGINEER
StartUp Hub
2014 - 2016

- Assisted in developing web applications using HTML, CSS, and JavaScript.
- Conducted testing and quality assurance to ensure application functionality.
- Collaborated with senior developers to learn best practices and coding standards.
- Engaged in troubleshooting technical issues to enhance application performance.
- Participated in team meetings to discuss project updates and challenges.
- Documented technical processes and project details for knowledge sharing.
