

MICHAEL ANDERSON

Back-end Developer

Experienced Web Systems Engineer with a strong focus on database management and back-end development. Over the past 6 years, I have developed expertise in creating efficient, scalable systems using technologies like .NET and SQL Server. My analytical skills enable me to diagnose issues quickly and implement effective solutions that enhance system performance and user experience.

WORK EXPERIENCE

Back-end Developer

2020-2023

Data Solutions Corp.

- Designed and maintained database systems that supported high-traffic applications.
- Implemented data security measures to protect sensitive information.
- Worked with front-end teams to integrate user-facing elements with server-side logic.
- Optimized SQL queries to improve application performance by 20%.
- Collaborated with project managers to ensure timely delivery of features.
- Participated in code reviews to uphold coding standards and best practices.

Web Systems Engineer

2019-2020

Tech Innovators Ltd.

- Developed and deployed web applications that enhanced operational efficiency.
- Conducted system testing to ensure functionality and performance.
- Worked with clients to gather requirements and provide tailored solutions.
- Maintained documentation for system designs and processes.
- Engaged in troubleshooting and debugging to resolve technical issues.
- Mentored junior developers, sharing knowledge and best practices.

ACHIEVEMENTS

- Reduced application downtime by 40% through proactive monitoring and maintenance.
- Achieved a 95% success rate in user acceptance testing for new features.
- Recognized for excellence in database design and optimization.
