EDUCATION

BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY

ACHIEVEMENTS

- Improved test coverage by 50% through the development of new automated test cases.
- Recognized for outstanding teamwork during a critical project launch.
- Contributed to a project that achieved a 98% satisfaction rating from user feedback.

PROFILE

Results-driven Web Testing Engineer with over 5 years of specialized experience in the healthcare technology sector. Expertise in both manual and automated testing, ensuring that applications meet stringent regulatory compliance standards. Strong background in developing test cases based on functional specifications and user stories. Proficient in using testing frameworks such as Cypress and ensuring seamless integration with CI/CD pipelines.

EXPERIENCE

WEB TESTING ENGINEER

HealthTech Innovations

2016 - Present

- Designed and executed test cases for healthcare applications, ensuring compliance with HIPAA regulations.
- Collaborated with developers to identify and resolve defects early in the development lifecycle.
- Automated test scripts using Cypress, improving test efficiency by 35%.
- Conducted usability testing sessions with end-users to gather feedback and improve application design.
- Participated in sprint reviews and retrospectives, providing insights on testing processes.
- Maintained detailed documentation of test cases and test results for audit purposes.

JUNIOR WEB TESTING ENGINEER

MediSoft Solutions

2014 - 2016

- Assisted in the execution of manual testing for various healthcare applications.
- Conducted exploratory testing to identify critical defects before product release.
- Reported issues using JIRA and tracked resolution progress with development teams.
- Supported the automation of regression tests, contributing to improved testing efficiency.
- Participated in user acceptance testing to validate software against user requirements.
- Created and maintained test documentation and defect logs for tracking purposes.
