

MICHAEL ANDERSON

Senior QA Engineer

Experienced Web Testing Engineer with a strong background in the fintech industry, bringing over 9 years of experience in quality assurance testing. Specializes in both manual and automated testing for complex financial applications, emphasizing security and compliance. Proven expertise in developing and implementing testing strategies that ensure software quality and performance.

WORK EXPERIENCE

Senior QA Engineer 2020-2023

FinTech Innovations

- Led the testing efforts for various financial applications, ensuring compliance with industry standards.
- Automated testing processes using Selenium and JUnit, resulting in a 40% increase in testing efficiency.
- Developed security testing frameworks to identify vulnerabilities and ensure data protection.
- Collaborated with cross-functional teams to define testing requirements and acceptance criteria.
- Provided mentorship to junior QA engineers, fostering a culture of quality assurance.
- Documented test cases and test results, ensuring thorough record-keeping for audits.

QA Engineer 2019-2020

SecurePay Systems

- Performed manual testing of payment processing applications, ensuring functionality and performance.
- Developed automated regression tests, improving test coverage and reliability.
- Executed performance and load testing to ensure applications operated under peak loads.
- Collaborated with developers to troubleshoot issues and improve application stability.
- Documented testing results and communicated findings to development teams for quick resolution.
- Participated in Agile sprints, providing insights on testing progress and challenges.

ACHIEVEMENTS

- Increased test automation coverage by 60% within two years.
- Received 'Best QA Team' award for outstanding contributions to project success.
- Contributed to a project that achieved a 99% uptime during peak transaction periods.
