# MICHAEL ANDERSON

## JUNIOR WEB UI DEVELOPER

Enthusiastic Web UI Developer with a solid foundation in front-end technologies and 4 years of hands-on experience in developing interactive web applications. My background in computer science has equipped me with a strong understanding of algorithms and data structures, which I apply to optimize web performance. I am skilled in collaborating with back-end developers to create seamless server-side applications, ensuring a cohesive user experience.

## PROFESSIONAL EXPERIENCE

### **Innovative Tech Solutions**

*Mar 2018 - Present*

Junior Web UI Developer

- Developed user-friendly web interfaces using HTML, CSS, and JavaScript, increasing user satisfaction ratings by 15%.
- Worked alongside back-end developers to integrate APIs, enhancing application functionality.
- Participated in code reviews and contributed to team knowledge-sharing sessions.
- Assisted in troubleshooting and debugging web applications to improve performance.
- Contributed to the migration of legacy systems to modern frameworks, reducing maintenance costs.
- Engaged with stakeholders to gather requirements and provide technical support.

### **Future Web Agency**

*Dec 2015 - Jan 2018*

Web Development Intern

- Supported the development of client websites, focusing on front-end coding and design.
- Learned and applied modern JavaScript frameworks such as Vue.js and React.
- Assisted in creating responsive designs that improved mobile user experience.
- Participated in brainstorming sessions to generate innovative web solutions.
- Conducted user testing to gather feedback for design improvements.
- Documented processes and created user manuals for future reference.

## ACHIEVEMENTS

- Improved application load times by 20% through effective optimization techniques.
- Recognized for outstanding teamwork during a major project rollout.
- Successfully contributed to a project that won a local business innovation award.
