# Michael Anderson

## LEAD WEB DEVELOPER

Dedicated Web UI Developer with a strong focus on accessibility and inclusive design, backed by over 8 years of experience in delivering high-quality web applications. I believe that technology should be accessible to everyone, and I have a proven track record of implementing best practices to ensure compliance with accessibility standards (WCAG).

## EXPERIENCE

### LEAD WEB DEVELOPER

Inclusive Tech Solutions

2016 - Present

- Led a team responsible for developing accessible web applications, improving inclusivity for users with disabilities.
- Conducted accessibility audits and implemented necessary changes to meet WCAG 2.1 standards.
- Collaborated with designers to create user interfaces that cater to a diverse audience.
- Participated in community outreach programs to educate others on the importance of accessible design.
- Trained team members on accessibility best practices and coding standards.
- Utilized analytics tools to measure user engagement and refine web strategies accordingly.

### WEB DEVELOPER

Tech for Good

2014 - 2016

- Developed educational websites focused on enhancing learning experiences for users with disabilities.
- Collaborated with educators to ensure the content was accessible and engaging.
- Implemented responsive design techniques to enhance usability across different devices.
- Gathered user feedback to continuously improve web applications based on real-world use cases.
- Created documentation and user guides to assist users in navigating web applications.
- Contributed to the development of training resources for educators on digital accessibility.
