Innovative Web UI Developer with a specialization in mobile-first design and over 5 years of experience in crafting engaging web applications for various industries. My approach to development is rooted in understanding user needs and preferences, which guides my design decisions. I am proficient in leveraging frameworks such as Bootstrap and Foundation to create responsive designs that look great on all devices.

💼 WORK EXPERIENCE

Web UI Developer   2020-2023

Digital Services Inc.

- Designed and developed mobile-first web applications that improved mobile traffic by 35%.
- Collaborated with cross-functional teams to gather requirements and deliver project milestones.
- Utilized Bootstrap and Foundation frameworks to create responsive layouts that enhanced user experience.
- Conducted SEO audits and implemented strategies that improved search rankings significantly.
- Engaged in user research to gather insights for design improvements and new features.
- Maintained and updated applications to ensure compatibility with the latest web standards.

Junior Front-End Developer   2019-2020

Next Web Solutions

- Assisted in the development of web applications with a focus on front-end features and usability.
- Learned and applied modern JavaScript libraries such as jQuery to enhance interactivity.
- Worked closely with designers to implement pixel-perfect designs based on wireframes.
- Participated in code reviews to improve code quality and foster team collaboration.
- Contributed to team meetings to discuss project updates and roadblocks.
- Developed documentation for code and user guides for better understanding.

⭐ ACHIEVEMENTS

- Increased website traffic by 40% through effective SEO strategies and user engagement tactics.
- Recognized for outstanding contributions during the launch of a significant product update.
- Successfully completed a project that received positive feedback from over 500 users.
