SKILLS

- Construction Inspection
- Quality Assurance
- NDT Methods
- Compliance Documentation
- Safety Protocols
- Team Coordination

EDUCATION

ASSOCIATE DEGREE IN CONSTRUCTION TECHNOLOGY, TECHNICAL COLLEGE

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Achieved a 10% reduction in rework costs through proactive quality inspections.
- Recognized for outstanding contributions to safety and quality in construction.
- Successfully completed multiple high-profile projects within budget and on schedule.

Michael Anderson

WELDING QUALITY INSPECTOR

Seasoned Welding Quality Inspector with substantial experience in the construction industry, focused on ensuring compliance with safety and quality standards. Excels at conducting thorough inspections of welded structures, effectively identifying potential issues before they escalate. Demonstrates proficiency in various inspection methods and tools, ensuring the structural integrity of welds in diverse construction projects.

EXPERIENCE

WELDING QUALITY INSPECTOR

BuildRight Construction

2016 - Present

- Inspected welded joints for structural integrity, ensuring compliance with local and federal regulations.
- Utilized visual inspection techniques and non-destructive testing methods.
- Documented inspection results and communicated findings to project management.
- Collaborated with subcontractors to resolve welding-related issues in real-time.
- Participated in safety meetings and ensured adherence to safety protocols.
- Conducted training sessions for field personnel on welding quality expectations.

WELDING INSPECTOR

MegaBuild Corp.

2014 - 2016

- Executed inspections of welds on major construction projects, ensuring quality standards were met.
- Utilized advanced measuring tools for accurate assessment of welds.
- Maintained records of inspections and prepared reports for compliance audits.
- Collaborated with engineering teams to develop and improve welding standards.
- Provided feedback on quality issues to contractors and ensured timely resolution.
- Adhered to safety regulations and promoted a safety-first culture on-site.
