

MICHAEL ANDERSON

Drilling Operations Engineer

Experienced Well Operations Engineer with a strong foundation in drilling engineering and operations management. Proven ability to lead drilling projects from inception to completion, ensuring timely delivery and adherence to budget constraints. Expertise in optimizing drilling techniques to enhance efficiency and safety. Strong analytical skills support the evaluation of drilling performance and the identification of improvement areas.

EDUCATION

Master of Science in Drilling Engineering

University of Houston
2016-2020

SKILLS

- Drilling operations
- Project management
- Performance evaluation
- Safety protocols
- Technical documentation
- Team training

LANGUAGES

- English
- Spanish
- French

WORK EXPERIENCE

Drilling Operations Engineer

2020-2023

DrillTech International

- Managed drilling operations for multiple onshore and offshore projects.
- Optimized drilling parameters to enhance safety and reduce costs.
- Coordinated with rig teams to ensure operational readiness.
- Conducted performance reviews and identified areas for improvement.
- Prepared drilling reports for stakeholders and management.
- Trained field personnel on drilling best practices and safety protocols.

Well Operations Engineer

2019-2020

Field Energy Services

- Executed well completion and intervention operations to maximize production.
- Utilized advanced drilling software for performance monitoring.
- Ensured compliance with environmental and safety regulations.
- Prepared and presented technical documentation for project reviews.
- Collaborated with cross-functional teams to streamline operations.
- Participated in safety training and compliance assessments.

ACHIEVEMENTS

- Successfully reduced drilling costs by 15% through process optimization.
- Recognized for outstanding performance in project delivery timelines.
- Developed a safety training program that reduced incidents by 30%.
