EXPERTISE SKILLS

- SD-WAN
- Network Architecture
- Project Management
- SNMP
- VoIP
- WAN Security

LANGUAGES

- English
- Spanish
- French

CERTIFICATION

- Master of Science in Network Engineering, Tech University

MICHAEL ANDERSON

LEAD WAN ENGINEER

An accomplished Wide Area Network Engineer with over 10 years of extensive experience in the telecommunications sector, I specialize in optimizing WAN solutions for large enterprises. My career journey began at a leading telecom provider where I developed foundational skills in network design and implementation. I have successfully led numerous projects that involve the integration of advanced networking technologies, including SD-WAN and cloud-based solutions.

PROFESSIONAL EXPERIENCE

Telecom Innovations Corp.

Mar 2018 - Present

Lead WAN Engineer

- Directed the design and implementation of a global WAN infrastructure for multinational clients.
- Optimized bandwidth usage through advanced routing protocols, achieving 60% operational efficiency.
- Managed a team of engineers in deploying SD-WAN solutions, improving network resilience.
- Executed comprehensive network audits, identifying and addressing performance bottlenecks.
- Collaborated with senior management to develop strategic network initiatives.
- Mentored junior engineers, fostering a culture of continuous improvement and learning within the team.

NextGen Telecom

Dec 2015 - Jan 2018

Network Engineer

- Designed and implemented scalable network solutions for a diverse client base.
- Configured and maintained a variety of network devices, ensuring seamless connectivity.
- Conducted training sessions for clients on network management and troubleshooting.
- Utilized network monitoring tools to enhance visibility and performance tracking.
- Collaborated with software developers to integrate network solutions with applications.
- Played a key role in disaster recovery planning and execution for critical network services.

ACHIEVEMENTS

- Achieved a 40% cost reduction in WAN operations through effective vendor negotiations.
- Successfully reduced network latency by 50% by implementing advanced routing techniques.
- Awarded 'Employee of the Year' for outstanding contributions to network projects.
