## SKILLS

- Herpetology
- ecological modeling
- data analysis
- public engagement
- habitat restoration
- laboratory techniques

## EDUCATION

**BACHELOR OF SCIENCE IN BIOLOGY,  
UNIVERSITY OF GEORGIA**

## LANGUAGE

- English
- Spanish
- German

## ACHIEVEMENTS

- Contributed to a major study that identified critical habitats for endangered amphibians.
- Received recognition for outstanding fieldwork in amphibian monitoring.
- Co-authored a significant publication on the impact of climate change on amphibians.

# Michael Anderson

## HERPETOLOGIST

Passionate Wildlife Biologist with over 7 years of experience in herpetology and amphibian conservation. Strong background in laboratory and field research, focusing on the effects of climate change on amphibian populations. Proficient in statistical analysis and ecological modeling. Committed to wildlife education and community outreach, working to foster a greater understanding of amphibians' role in ecosystems.

## EXPERIENCE

### HERPETOLOGIST

Amphibian Research Center

2016 - Present

- Conducted field surveys to monitor amphibian populations in various habitats.
- Analyzed data to assess the impact of environmental changes on species distribution.
- Collaborated with conservation organizations to implement habitat restoration projects.
- Educated the community on the importance of amphibians in ecosystems.
- Utilized laboratory techniques to study amphibian physiology and health.
- Presented research findings at national conferences to share knowledge with peers.

### WILDLIFE TECHNICIAN

Conservation International

2014 - 2016

- Assisted in the collection of data for amphibian population studies.
- Maintained field equipment and ensured accurate data collection procedures.
- Supported research initiatives aimed at understanding amphibian declines.
- Collaborated with local communities to promote amphibian conservation efforts.
- Contributed to reports and publications on amphibian health and conservation.
- Participated in outreach activities to raise awareness about herpetological issues.
