

# MICHAEL ANDERSON

## LEAD WIRELESS NETWORK ENGINEER

### PROFILE

With a career spanning over a decade, I am a seasoned Wireless Network Engineer specializing in large-scale network deployments for enterprise environments. My experience encompasses designing, implementing, and managing wireless networks across various sectors, including healthcare, education, and government. I excel in analyzing client requirements and tailoring network solutions that enhance connectivity and security.

### EXPERIENCE

#### LEAD WIRELESS NETWORK ENGINEER

##### Innovative Tech Solutions

2016 - Present

- Oversaw the deployment of a secure Wi-Fi network across a multi-campus university, serving over 30,000 students.
- Conducted risk assessments to identify vulnerabilities and implemented security enhancements.
- Managed a team of engineers in the installation and configuration of wireless access points.
- Maintained network documentation and created user manuals for client reference.
- Utilized performance monitoring tools to proactively address network issues before they escalated.
- Coordinated with IT staff to integrate wireless solutions with existing network infrastructures.

#### WIRELESS NETWORK CONSULTANT

##### ConnectTech Advisors

2014 - 2016

- Provided expert consultation on wireless network design for healthcare facilities, ensuring HIPAA compliance.
- Developed customized wireless strategies that improved patient connectivity and satisfaction.
- Facilitated training sessions for healthcare staff on new wireless technologies.
- Collaborated with architects and engineers to design network layouts for new facility constructions.
- Analyzed existing networks, identifying areas for improvement and cost reduction.
- Created comprehensive reports outlining the benefits of proposed wireless solutions.
