Michael Anderson

PROJECT WIREMAN

Results-driven Wireman with a strong foundation in commercial electrical systems and project management. Demonstrated ability to lead complex electrical installations while ensuring compliance with safety and quality standards. Expertise in managing teams, coordinating with stakeholders, and delivering projects on time and within budget. Strong communication skills facilitate effective collaboration with clients, contractors, and regulatory bodies.

EXPERIENCE

PROJECT WIREMAN

Commercial Electric Group

2016 - Present

- Managed electrical installation projects for large commercial developments.
- Coordinated with contractors and subcontractors to ensure project alignment.
- Conducted safety audits and inspections throughout project phases.
- Oversaw budgeting and resource allocation for electrical projects.
- Developed project timelines and ensured adherence to schedules.
- Provided regular updates to stakeholders on project progress and milestones.

WIREMAN

Building Innovations

2014 - 2016

- Installed and maintained electrical systems in commercial buildings.
- Conducted troubleshooting and repairs of electrical equipment.
- Collaborated with architects to ensure electrical designs meet client specifications.
- Maintained compliance with local electrical codes and regulations.
- Provided technical input during project planning phases.
- Documented all work performed for project records.
