

MICHAEL ANDERSON

LEAD TIMBER FRAMER

PROFILE

Distinguished Wood Joiner with a specialization in large-scale timber framing and architectural joinery, recognized for a meticulous approach to complex projects. Expert in leveraging both traditional and modern techniques to produce robust structures that meet rigorous safety and aesthetic standards. Extensive experience in collaborating with architects and builders to ensure seamless integration of wood components into various edifices.

EXPERIENCE

LEAD TIMBER FRAMER

Timberworks LLC

2016 - Present

- Led a team of craftsmen in the construction of timber-framed homes, ensuring structural integrity and aesthetic appeal.
- Developed detailed project timelines and budgets, achieving completion ahead of schedule.
- Implemented rigorous safety protocols, resulting in zero workplace accidents over five years.
- Coordinated with subcontractors and suppliers to streamline project execution and material delivery.
- Conducted site inspections to verify compliance with local building codes and regulations.
- Presented design proposals to clients, incorporating their feedback into final plans.

WOOD JOINER

Heritage Woodworks

2014 - 2016

- Constructed custom door frames and windows, enhancing historical building restorations.
- Utilized advanced CAD software to produce detailed woodworking plans.
- Collaborated with preservationists to ensure authenticity in restoration projects.
- Managed inventory of reclaimed materials, ensuring sustainable sourcing practices.
- Participated in community workshops to educate on the benefits of traditional woodworking techniques.
- Achieved a 95% success rate in project approvals from historical societies.
