EXPERTISE SKILLS

- Time studies
- Process optimization
- Data analysis
- Lean principles
- Team collaboration
- Reporting

LANGUAGES

- English
- Spanish
- French

CERTIFICATION

- Bachelor of Science in Industrial Engineering, University of Engineering, 2018

MICHAEL ANDERSON

WORK MEASUREMENT ENGINEER

Detail-oriented Work Measurement Engineer with 5 years of experience in the electronics manufacturing sector, focusing on process optimization and productivity enhancement. My role involves conducting thorough time studies and analyzing work methods to eliminate waste and improve efficiency. With a background in industrial engineering, I have developed a strong technical skill set that enables me to apply quantitative analysis to real-world problems.

PROFESSIONAL EXPERIENCE

ElectroWorks Inc.

Mar 2018 - Present

Work Measurement Engineer

- Conducted time studies to determine labor standards and identify inefficiencies in production processes.
- Collaborated with engineering teams to design efficient workflows that minimized waste.
- Utilized data analysis tools to monitor and improve production metrics.
- Provided recommendations for equipment upgrades that increased productivity by 10%.
- Trained team members on work measurement techniques and Lean principles.
- Presented findings to management, influencing strategic decisions on resource allocation.

Tech Innovations Ltd.

Dec 2015 - Jan 2018

Process Improvement Intern

- Assisted in time and motion studies to support the development of labor standards.
- Performed data analysis to identify trends and areas for improvement in production.
- Collaborated with cross-functional teams to implement process improvements based on study results.
- Prepared reports summarizing findings and proposed solutions to management.
- Participated in team meetings to discuss ongoing projects and share insights.
- Contributed to the development of training materials for new employees.

ACHIEVEMENTS

- Increased productivity by 10% through the implementation of new workflows and training programs.
- Recognized for exceptional performance as an intern, leading to a full-time role.
- Contributed to a project that improved production accuracy, reducing errors by 25%.
