EDUCATION

BACHELOR OF SCIENCE IN SOFTWARE ENGINEERING, TECH UNIVERSITY

ACHIEVEMENTS

- Received recognition for developing a mobile app that won the 'Best App of the Year' award in 2020.
- Contributed to a project that increased user retention by 35% through improved user experience.
- Successfully migrated an existing application to a newer version of Xamarin, enhancing app stability.

PROFILE

Results-driven Xamarin Developer with a solid 4-year track record in crafting high-quality mobile applications. Expertise in leveraging Xamarin tools to build, test, and deploy applications across multiple platforms. Committed to enhancing user experience through intuitive design and efficient coding practices. Experienced in both front-end and back-end development, with a knack for troubleshooting and optimizing performance.

EXPERIENCE

XAMARIN DEVELOPER

NextGen Mobile Apps

2016 - Present

- Developed mobile applications using Xamarin, focusing on seamless integration and performance optimization.
- Worked closely with product owners to gather requirements and deliver features that met user needs.
- Implemented best practices for coding and documentation, enhancing team efficiency.
- Collaborated with QA teams to conduct thorough testing and ensure high-quality releases.
- Maintained and updated existing applications, improving functionality based on user feedback.
- Participated in weekly sprint meetings to discuss project progress and roadblocks.

JUNIOR MOBILE DEVELOPER

Creative Tech Solutions

2014 - 2016

- Assisted in the development of cross-platform mobile applications using Xamarin and C#.
- Contributed to the design and implementation of user interfaces, ensuring responsiveness across devices.
- Engaged in peer code reviews, providing constructive feedback to improve code quality.
- Worked with databases and APIs to facilitate data-driven application features.
- Documented development processes and created user manuals for internal use.
- Participated in team brainstorming sessions to generate innovative application ideas.
