Michael Anderson

ZOO VETERINARIAN

Enthusiastic Zoo Veterinarian with 5 years of experience in the field of wildlife medicine, focusing on amphibians and small mammals. Committed to advancing animal welfare through innovative care practices and community education. Experienced in conducting health assessments, diagnostic testing, and treatment planning for various species. Proven ability to work effectively in team environments, collaborating with zookeepers and educators to enhance animal care programs.

EXPERIENCE

ZOO VETERINARIAN

Green Valley Zoo

2016 - Present

- Provided medical care for over 150 species of amphibians and small mammals.
- Conducted routine health inspections and developed treatment plans to address health concerns.
- Collaborated with zookeepers to implement enrichment programs that improve animal welfare.
- Engaged in public education efforts, leading workshops on amphibian conservation.
- Utilized diagnostic tools to monitor and assess animal health effectively.
- Trained interns and volunteers in proper animal handling and care techniques.

VETERINARY ASSISTANT

Wildlife Clinic

2014 - 2016

- Assisted in the care and treatment of injured and ill wildlife, focusing on small mammals.
- Monitored animals during recovery and reported any changes in health status.
- Helped maintain a clean and safe environment for animal rehabilitation.
- Contributed to the development of educational materials on wildlife care for the community.
- Engaged in outreach programs, providing education on local wildlife issues.
- Supported the veterinary team during surgeries and treatment procedures.
