SKILLS

- Primate Behavior
- Research Methodology
- Data Analysis
- Public Outreach
- Collaboration
- Education Development

LANGUAGES

- English
- Spanish
- French

EDUCATION

PHD IN PRIMATOLOGY, UNIVERSITY OF ANTHROPOLOGY

ACHIEVEMENTS

- Recognized for groundbreaking research on primate social structures.
- Invited to lead workshops at international primatology conferences.
- Published multiple articles in leading behavioral science journals.

WORK EXPERIENCE

PRIMATE RESEARCH SCIENTIST

Primate Behavior Laboratory

2020 - 2025

- Conducted long-term field studies on the social behaviors of various primate species.
- Utilized behavioral observation techniques to gather data on social hierarchies.
- Published research findings in peer-reviewed journals, enhancing academic knowledge.
- Developed educational programs for local schools to raise awareness about primate conservation.
- Collaborated with conservation NGOs to implement habitat protection initiatives.
- Presented research at international conferences, increasing visibility in the field.

BEHAVIORAL RESEARCH ASSISTANT

University of Primate Studies

2015 - 2020

- Assisted in research focusing on primate social interactions and communication.
- Collected and analyzed data to support research hypotheses.
- Engaged in public speaking events to share research findings.
- Trained new students in data collection methods and ethical research practices.
- Contributed to the development of a comprehensive database for behavioral studies.
- Participated in outreach programs designed to educate the public on primate conservation.
